

## ***Why recertify?***

## ***What's in it for me?***

*As we all know, Industrial Security Professionals are dedicated to protecting our country, our warfighters, and our companies. As economic times change, we are doing more with less. Therefore, it is more important than ever to be prepared to handle a larger workload with a smaller staff and maintain the competitive edge.*

*The ISP® certification enables us to stand out in a crowd, it demonstrates that we are experts in our field and that we are prepared to provide the leadership, direction, and inspiration to sustain a successful/compliant security program for our company and our country.*

**Must recertify every three years**

**60 CEUs are required**

**Some or all of your activities may qualify for credit**

### **Questions About Recertification?**

Please contact the Recertification Subcommittee Chair or refer to the Recertification Guide at:

[http://www.ncms-isp.org/documents/recertification\\_Credit\\_guide.pdf](http://www.ncms-isp.org/documents/recertification_Credit_guide.pdf)

## **ISP® Recertification**

### ***IT'S SO EASY!***

***Earn Credits***

***Collect Supporting Documentation***

***Submit***

## Top 5 reasons to recertify:

- 1) An ISP® Certification demonstrates a foundation that includes areas of discipline that directly contribute to keeping our warfighters safe and secure.
- 2) A company with ISP®s on its security staff is in a stronger position when competing for contracts. The Certification provides a competitive edge for proposal submissions, bid awards, company awards, and professional recognition in the security arena.
- 3) The ISP® Certification provides enhancement points during the DSS Vulnerability Assessment — Category 3: Security Staff Professionalism.
- 4) An ISP® Certification demonstrates a high degree of professionalism and the willingness to go the extra mile to develop professionally. It also builds self-confidence!
- 5) Being an ISP® certifies that the individual has the requisite knowledge of the NISPOM and other related directives used by FSOs on a daily basis.

## Online Application:

Pulling together your supporting documentation is easy! As you earn your CEUs, you may record the events and upload the required documentation into the repository immediately!

No more waiting!

## Remember...

- Candidates must recertify every three years by the last day of the month in which the candidate originally became certified. You cannot submit your packet earlier than six months prior to the deadline.
- Only CEUs earned during your current recertification period may be used.
- Sixty CEUs are required for recertification.
- All requests for credits to be used for recertification will be adjudicated by the NCMS ISP® Committee.
- Some or all of your activities may qualify for credit under more than one professional certification.
- A maximum of 50% of the claimed recertification credits can come from Membership and Voluntary Service activities. At least 50% of the credits must come from Educational Programs and Courses, Instruction, Speeches, and Other Presentations, or Publications.
- The same activity may not be counted under more than one category. (For example, a presentation originally given orally cannot be published and counted both as a presentation and as a published article.)
- Attach all Documentation to support claimed CEUs. Not including the required documentation will only delay your recertification.
- Agendas that verify the training schedule must be included with all certificates of attendance in order to verify the number of CEUs to be awarded.
- Only industrial security-related training and education may be counted towards recertification.

## Key Documents for Recertification:

- 1) Recertification Tips
- 2) Recertification Checklist
- 3) Recertification Credit Guide

## Testimonials:

“I saw the ISP® Certification as a way to demonstrate that I was qualified across the broad range of security disciplines for supporting classified government contracts.”

“The test was hard and I felt a real sense of accomplishment when I passed. The effort and work made me a better professional and the tools I acquired made a difference in my job.”

“Having ‘ISP®’ after my name MEANS something! I have an ability now to confidently use, refer to, and quote the NISPOM!”

“I cannot express how fulfilling it is to have ISP® after my name. It has also given me confidence in myself.”

“Since I earned the ISP®, I have noticed a distinct difference in my standing in the community and within my own company.”
